Undisputed Facts

1. In the Republic of Indo, the State of Shiboya is known for its rapidly developing industrial and infrastructure sectors. One of the major development projects undertaken by the Government of Shiboya was the construction of a hydroelectric power plant on Nila River in the city of Koban. The project was intended to strengthen the State's power generation capacity and support regional development. Pursuant to a government tender process, the contract for the construction of the hydroelectric power plant was given to Jujutsu Constructions Pvt. Ltd., a private infrastructure company owned by Mr. Gojo Kumar.

2. A large number of labourers were employed at the construction site and were represented by the Rodo Labour Union. Elections were held for the leadership of the union, in which two candidates contested, namely Mr. Rathinavel, who was widely supported by the labourers, and Mr. Ravichandran, who had previously served as the leader of the union.

3. From the beginning of the project, Mr. Rathinavel had organised multiple strikes against Jujutsu Constructions alleging improper management and unsafe working conditions. During the course of this strike, the protest allegedly turned violent and Mr. Gojo Kumar sustained injuries, including a fracture to his dominant hand. Multiple other workers sustained multiple minor injuries as well.

4. Later during constructions at the site, Mr. Rathinavel nearly slipped into a cement mixing machine by accident but was pulled away by Mr. Mayur who is another worker and a member of the Union.

Undisputed Facts

5. Later that week, Mr. Sukuna Ravichandran and Mr. Rathinavel later had a meeting near the turbine control room of the dam site. Thereafter, Mr. Rathinavel organised another protest by workers, again raising concerns regarding unsafe working conditions and delayed payment of wages, during the protest a heated argument took place between Mr. Rathinavel and Mr. Ravichandran regarding the leadership of the labour union and the continuation of protests.

6. Other workers noticed that Mr. Rathinavel had an apprehension that someone was attempting to remove him from his position as union leader. The very next day on 10 January 2026, Mr. Rathinavel was last seen near the turbine control room of the dam site after work hours.

7. On 13 January 2026, Mr. Dolu Kumar, from the technical team responsible for turbine maintenance, noticed an obstruction during routine testing of the turbine mechanism and discovered a human body lodged inside the turbine chamber. Mr. Dolu Kumar immediately informed the Koban Police Station regarding the discovery. Police officers from Koban Police Station arrived at the location, recovered the body and identified the deceased as Mr. Itadori Rathinavel with the assistance of Mr. Mayur. The body was thereafter sent for postmortem examination.
